

Product Code SMD-CT-3WY	Nominal Dimensions 8" x 2" x 2"	
Description The Secure Mini Dukt™ Reducing Three-Way Connector provides the transition point between Secure Raceway and a section of Secure Mini Dukt™, usually leading to a User Drop Box. This T-shaped, two-piece connector consists of a 16-gauge base and cover and an 18-gauge transition tube welded to the base. Two manufactured mounting points on the base allow a simplified, labor-saving mounting technique. Installing the Reducing Three-Way Connector to two sections of Secure Raceway requires one Steel Locking Kit (SDS-LK-KIT-ST), one End-To-End Connector (SDS-CT-EE6-ST) and two Secure Raceway Joints (SDS-RW-SRJ). When the Reducing Three-Way Connector is used at the end of a Secure Raceway run, the installer would use one Steel Locking Kit, one End-to-End Connector, two Secure Raceway Joints, and one Run End Connector (SDS-WM-REC) to complete the run.		
Specifications <ul style="list-style-type: none"> • 16-gauge electro-galvanized steel base and cover and 18-gauge transition tube • Length 8" x Width 1.9" x Height 1.8" • Weight 1.5 lbs • Two manufactured mounting points located along connector base center line Powder Coat Finish: White Textured
