Product Code	**Nominal Dimensions**
SDS-CT-OFF-08	15" x 10" x 2"

Description

The Offset Connector 8 Inch greatly simplifies and expedites installation of Secure Raceway around a column with an 8" depth. Offset Connectors reduce the number of parts previously required to mount the raceway around a column, providing a cleaner appearance and reducing material and labor costs. Like a straight section of Secure Raceway, Offset Connectors consist of two components – the Raceway and TopCap. Two manufactured mounting points at each end simplify attachment to the wall. The Offset Connector 8 Inch is conveniently packaged in sets of two connectors (Product Code: SDS-CT-COL-02). Refer to the SDS-CT-COL-02 data sheet for installation guidelines.

Specifications

- 16-gauge electro-galvanized steel
- Components:
  - High Security Raceway: Length 15" x Width 10" x Height 1.8"
  - High Security TopCap: Length 15" x Width 10" x Height 1.9"
- Total Length: 15"
- Total Weight: 3.42 lbs
- Two (2) manufactured mounting points in each Raceway section
  - 1.5" from each end
  - Located along raceway center line

Powder Coat Finish: White Textured
