

<b>Product Code</b>  <b>SLC-WM-PB3-H1</b>	<b>Nominal Dimensions</b>  8" x 16" x 7"	
<b>Description</b>  The Secure Large Carrier™ (SLC) PB3 is an extremely versatile Pull Box that allows Secure Large Carrier™ Raceway to exit the front of the enclosure (to the right side of the door), as well as from the left and right sides of the enclosure, through an SLC Interface Sleeve (included). Like the SLC PB0 and PB2, the PB3 comes with replacement blank flanges allowing Secure Large Carrier to transition to Holocom's two other secure cable carriers: SDS Raceway and Secure Mini Dukt™ (SMD) Tube. The PB3 also allows SDS Raceway and SMD Tube to exit the enclosure through the front on the left side of the door opening as well as through the top and bottom. Three (3) SLC TopCap starter pieces for installing the SLC Lock Kit are included. The drop-down door has a tamper-resistant design with internal spring hinge and proprietary back flange, and closes securely with a Sargeant & Greenleaf® padlock.
